The war in Ukraine presents a direct threat to the lives and health of several million children in that country. The needs of the little Ukrainian citizens and their guardians are enormous and will probably continue to grow. Today the priorities include drinking water, hot meals, clothing, blankets as well as basic medicines. It is becoming necessary to assure safe shelter for children, and subsequently to organize psychological support, arrange pediatric care or start care and educational activities for children. All of this requires enormous financial means.

Polsat Foundation has since the start of its operations been trying to provide aid wherever it was most needed. That is why under the current circumstances the Foundation has decided to activate a dedicated bank account, thus enabling all the people willing to help to contribute to this cause.

For starters the account was injected with funds by Zygmunt Solorz’s Group companies. TV Polsat, Plus mobile network, Polsat Box platform, Netia and ZE PAK are contributing 5 million zloty to aid the Ukrainian children. The account is available to all those willing to contribute to the cause. Money can be paid in to the account no. 96 1140 0039 0000 4504 9100 2004, with a note “For the Children of Ukraine.”
