

Financial results H1 2015

26 August 2015

Cyfrowy Polsat S.A. Capital Group

Disclaimer

This presentation includes 'forward-looking statements'. All statements other than statements of historical facts included in this presentation, including, without limitation, those regarding our financial position, business strategy, plans and objectives of management for future operations (including development plans and objectives relating to our products and services) are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding our present and future business strategies and the environment in which we will operate in the future. These forward-looking statements speak only as at the date of this presentation. We expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. We caution you that forward-looking statements are not guarantees of future performance and that our actual financial position, business strategy, plans and objectives of management for future operations may differ materially from those made in or suggested by the forward-looking statements contained in this presentation. In addition, even if our financial position, business strategy, plans and objectives of management for future operations are consistent with the forward-looking statements contained in this presentation, those results or developments may not be indicative of results or developments in future periods. We do not undertake any obligation to review or to confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise after the date of this presentation.

As the consolidation of the results of Metelem Holding Company Limited, the company indirectly controlling Polkomtel, started from 7 May 2014, the Company has decided to adjust the method of presentation of its operational data so as to align it with the new structure and mode of operation of our Group. The presentation contains the new set of key performance indicators (KPI's), covering our operations in the fields of telecommunications and pay TV. The operational indicators from before that period are only of informational nature and they demonstrate the impact that Metelem Group's operational performance, Polkomtel's results in particular, would have had on the Group's operational results, had Metelem Group been part of Polsat Group during these periods. The KPI's are illustrative only and due to their nature they only present a hypothetical situation, hence they do not present the Group's actual operational results for specific periods.

Key events

Corporate events

- Issue of unsecured bonds worth PLN 1 billion with interest rate of WIBOR 6M+250bps. The bonds are traded in the Catalyst alternative trading system
- Pre-term repayment of PLN 1 billion under the SFA CP
- Continuation of the refinancing process of SFA CP and SFA PLK facilities

Products and services

- New release of the smartDOM program. The refreshed offer features the possibility of purchasing even up to 6 services, 5 of which are offered at discounted prices
- Migration of CP TV services to MPEG-4 compression standard (from October 2015)

2. Operations Report

2.1 Services to individual and business customers

Tomasz Gillner-Gorywoda

President of the Management Board, CEO

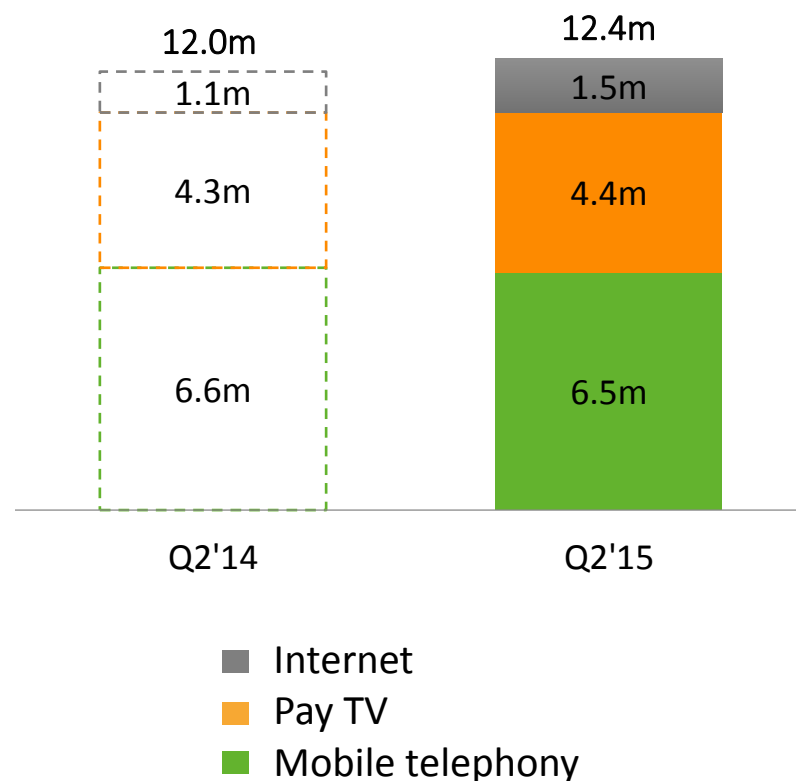

Effective execution of the strategy

- Customer base remains at a level of 6.0m
- Churn ratio of 10.1% as a result of an accumulation of ending contracts for pay TV in H1'15
- Consistent execution of the strategy resulting in an increase in the saturation of the customer base with contract services
- Sharp increase of ARPU per customer by 2.0% YoY

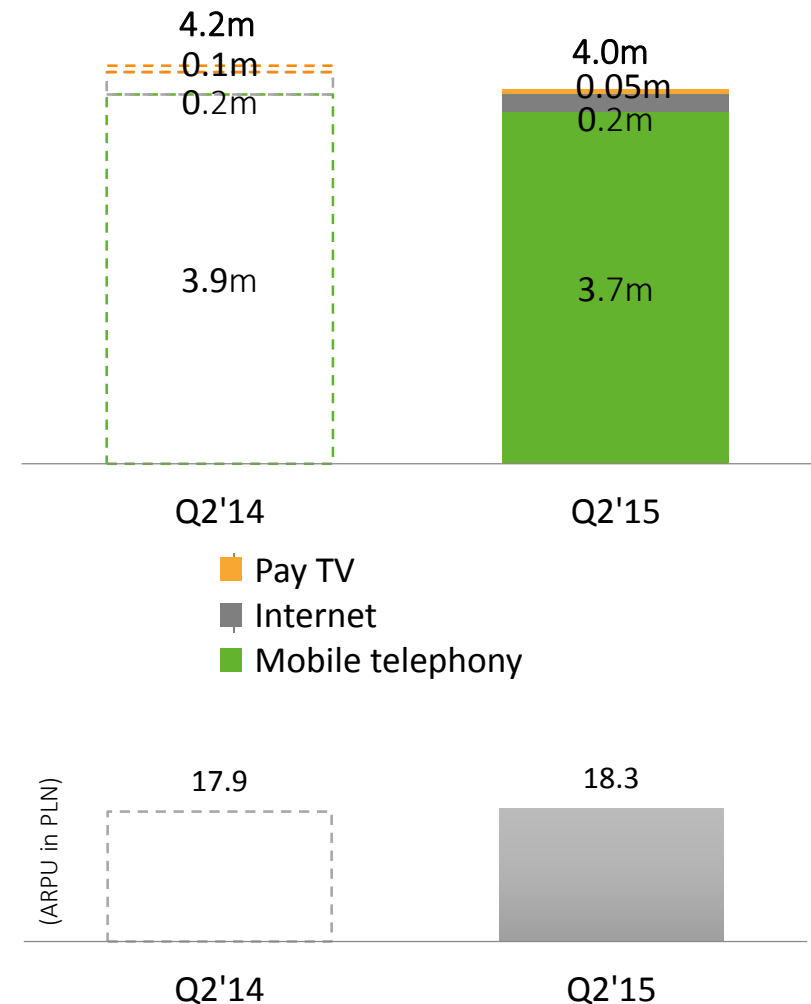

Stable growth of contract services

- Growth of the total base of contract services by 2.9%
- Number of customers of the contract-based Internet access service approaches 1.5m, due to effective saturation of the customer base with integrated services
- Growth of the number of pay TV RGUs by 2.8% driven by continued demand for the Multiroom service
- Slight decrease of the number of mobile telephony RGUs, as a result of a highly competitive market

Prepaid services

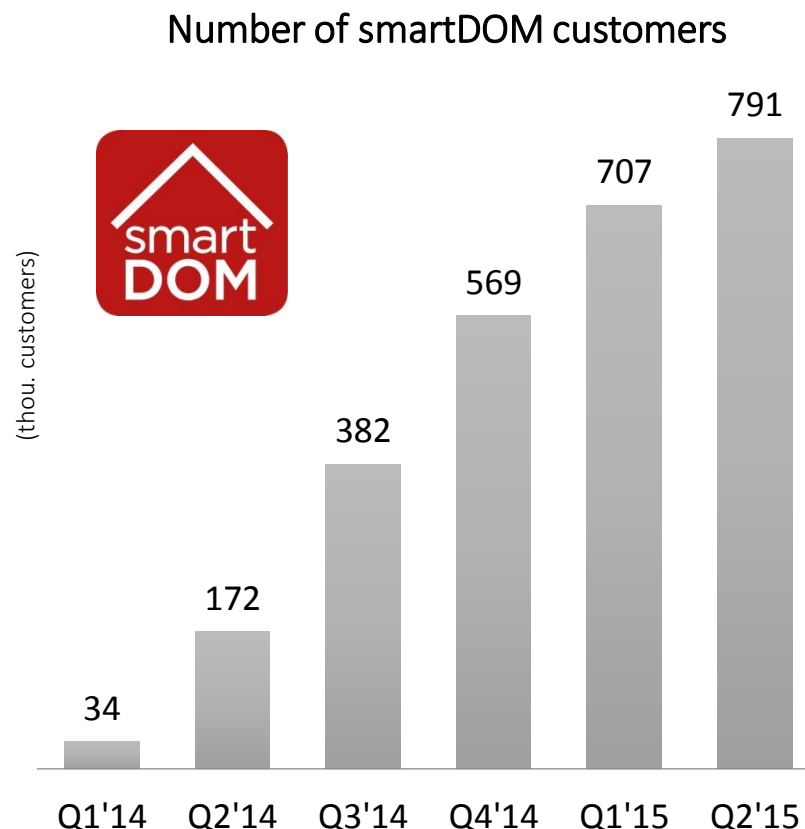

- RGU base of prepaid services mainly affected by the gradual migration of prepaid customers to postpaid contracts, a trend observed throughout the market
- ARPU growth at a pace of 2.6% YoY: in a stable pricing environment in the segment
- Growth of data consumption on smartphones and higher volumes of traffic positively reflected in the level of ARPU

Success of our multiplay strategy

- Stable growth of the saturation of our customer base with integrated services
- 791K customers purchased additional services from our smartDOM offer
- The number of RGUs owned by this group of customers is 2.41 million

Dynamically growing base of mobile broadband and smartphone users

- The successive increase of our network coverage combined with an effective multiplay strategy enables us to maintain the rate of acquisition of new mobile Internet RGUs
- Already over 2300 base stations operate in LTE800 data transmission technology thanks to which Plus and Cyfrowy Polsat customers enjoy the largest LTE network coverage footprint
- Continuous growth of the number of smartphone users – in Q2'15 smartphones accounted for around 90% of the total number of handsets sold
- As a result, in June 2015 data transmission services were actively used by 4.9m SIMs logged onto our network

Growth of the base of contract Internet RGUs

Number of active data users ⁽¹⁾

Note: (1) Includes Internet access contract RGU's as well as other SIMs with data transfer exceeding 1MB in a given month

2.2 Broadcasting and TV production segment

Maciej Stec

Member of the Management Board

Viewership of our channels in Q2'15

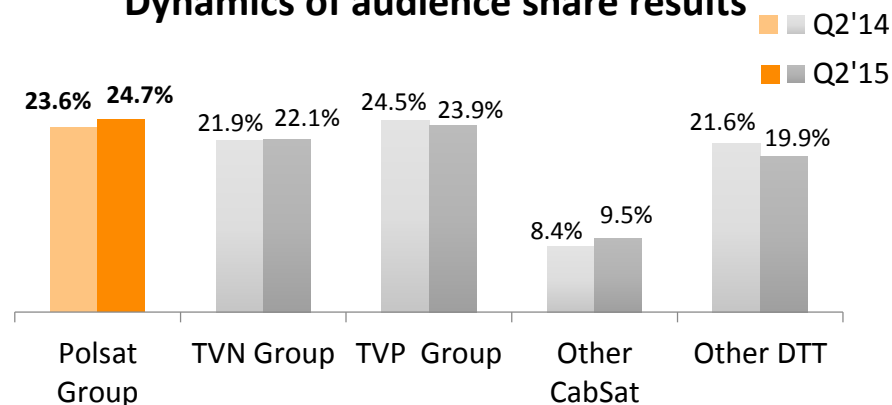

- Polsat's main channel and Polsat Group are the viewership leaders in the commercial group
- Very positive effect of programming investments made in TV4 and TV6 channels

Audience shares

3. Financial results

Tomasz Szelaąg

Member of the Management Board, CFO

Group's financial results in Q2'15

mPLN	Q2'15	YoY change
Revenue	2,469	41%
Operating costs ⁽¹⁾	1,506	45%
EBITDA	977	38%
EBITDA margin	39.6%	(1.0pp)
Net profit	305	130%

- Increase in major bottom-line items as a result of the consolidation of Metelem Group's results for the full quarter (the consolidation of the comparative period from 7 May 2014)
- Excluding the effect of consolidation of Metelem, revenue grew YoY at 5.7% and EBITDA increased by 9.7%
- Net profit increased to the level of PLN 305m mainly as a result of ongoing optimization of the financing structure of Polsat Group's activities

Source: Interim condensed consolidated financial statements for the 3 and 6 month periods ended 30 June 2015 and internal analysis

Note: (1) Costs exclude depreciation, amortization, impairment and liquidation

Results of the segment of services to individual and business customers in Q2'15

mPLN	Q2'15	YoY change
Revenue	2,171	49%
Operating costs ⁽¹⁾	1,341	54%
EBITDA	844	42%
EBITDA margin	38.9%	(1.7pp)
Net profit	211	30%

- Excluding the effect of consolidation of Metelem, revenue grew at 4.9%, primarily due to higher sales of telecommunication products
- In spite of growing data transmission costs, due mainly to the growing number of mobile Internet service users, EBITDA for this segment, excluding consolidation of Metelem, grew at the pace of 6.6%, driven by, among others, lower marketing costs as well as lower customer service and retention costs

Source: Interim condensed consolidated financial statements for the 3 and 6 month periods ended 30 June 2015 and internal analysis

Note: (1) Costs exclude depreciation, amortization, impairment and liquidation

Results of the broadcasting and TV production segment in Q2'15

mPLN	Q2'15	YoY change
Revenue	346	6%
Operating costs ⁽¹⁾	213	2%
EBITDA	134	15%
EBITDA margin	38.6%	2.8pp
Net profit	109	3%

- Increase in revenue mainly due to the monetization of higher audience shares of TV4 and TV6 channels and the new Disco Polo Music channel – launched in May 2014
- Control of operating costs positively affected the improvement of EBITDA and EBITDA margin

Source: Interim condensed consolidated financial statements for the 3 and 6 month periods ended 30 June 2015 and internal analysis

Note: (1) Costs exclude depreciation, amortization, impairment and liquidation

Nota: (1) Nominal value of debt, excl. RCF

(2) Equivalent of the nominal value of EUR 542.5m and USD 500m PLK Senior Notes calculated at the average foreign exchange rates of the Polish National Bank as at August 24, 2015 of PLN/EUR 4.2390 and PLN/USD 3.6971, respectively

4. Q&A

Glossary

RGU (Revenue Generating Unit)

Single, active service of pay TV, Internet Access or mobile telephony provided in contract or prepaid model.

Customer

Natural person, legal entity or an organizational unit without legal personality who has at least one active service provided in a **contract model**.

Contract ARPU

Average monthly revenue per **Customer** generated in a given settlement period (including interconnect revenue)

Prepaid ARPU

Average monthly revenue per **prepaid RGU** generated in a given settlement period (including interconnect revenue)

Churn

Termination of the contract with **Customer** by means of the termination notice, collections or other activities resulting in the situation that after termination of the contract the Customer does not have any active service provided in the contract model.

Churn rate presents the relation of the number of customers for whom the last service has been deactivated (by means of the termination notice as well as deactivation as a result of collection activities or other reasons) within the last 12 months to the annual average number of customers in this 12-month period.

Usage definition (90-day for prepaid RGU)

Number of reported RGUs of prepaid services under the mobile telephony and Internet Access means the number of SIM cards which received or answered calls, sent or received SMS/MMS or used data transmission services within the last 90 days.

In practice this means that within the last 90 days a given card had to be inserted to a phone or another device which was active and was able to make or receive call, message, data transmission session. 90-day usage definition thus eliminates inactive cards.

Based on the aforementioned definition each year UKE collects data of the mobile operators in Poland in order for the European Commission to prepare a comparison of actual penetration of mobile telecommunication services in the EU countries (the so-called Digital Agenda report).
