

STATEMENT ON THE APPLICATION OF THE PRINCIPLES OF CORPORATE GOVERNANCE FOR THE FINANCIAL YEAR ENDED DECEMBER 31, 2014

1.1. Principles of corporate governance which the Company issuer is subject to

The Company is subject to the set of principles of the corporate governance for joint-stock companies issuing shares, convertible bonds, or senior bonds that are admitted to trade on the stock exchange. The principles of corporate governance in the form of the Best Practices of WSE Listed Companies, constitute an appendix to the Resolution No. 12/1170/2007 of the Council of WSE of July 4, 2007, amended by the following resolutions of WSE Council: no. 17/1249/2010 dated May 19, 2010, no. 15/1282/2011 dated August 31, 2011, no. 20/1287/2011 dated October 19, 2011 and no. 19/1307/2012 dated November 21, 2012 (amendments introduced in 2012 came into force on January 1, 2013).

The content of the document, prepared by the WSE, is publicly available at the seat of the Warsaw Stock Exchange (WSE) and on the website of WSE dedicated to those issues at <http://corp-gov.gpw.pl>.

1.2. Principles of corporate governance that the Company has waived

We make every possible effort to employ the corporate governance principles, set out in the above document, trying to execute all the recommendations regarding best practices of WSE Listed Companies and all recommendations directed to the management boards, supervisory boards and shareholders in all areas of our business.

In 2014, as a principle, we employed all the rules in force included in Parts: II, III and IV, to which the principle 'comply or explain' applies.

However, the Company has not implemented changes in the organization of the General Meeting so as to comply with principles – included until the end of 2012 in Part I, since January 2013 transferred to the principles laid down in Parts IV and II – regarding direct transmission and providing two-way communication as well as publication of audio or video recording of the General Meeting on the Company website. Thus the Company has violated the principle set out in Part IV section 10 and in Part II section I point 9a on the occasion of the General Meetings of the Company held in 2014. At the moment, the Management Board does not plan to make changes to the organization of the General Meeting. Ensuring the smooth running and the validity of the resolutions adopted by the General Meeting, as well as cost optimization are the priorities of the Management Board. Considering the small spread of the practice of conducting General Meetings using electronic means of communication and incomplete readiness of the market, and thus an increased risk of organizational and technical disturbances, the Management Board decided to postpone the consideration of the implementation of the rules in question. Concerning the recommendations stated in Part I, we need to comment on three issues.

Recommendation 1.12. We have waived the recommendation 1.12 enabling shareholders to exercise their right to vote in person or through a plenipotentiary from a location other than the General Meeting using electronic means of communication given the legal questions concerning this issue. Ensuring the smooth running and the validity of the resolutions adopted by the General Meeting are the priorities of the Management Board and at present the Management Board does not plan to make changes to the organization of the General Meeting.

Recommendation 1.5. The Company does not comply with the recommendation in relation to setting policy of remuneration of members of managing and supervising bodies. The rules of remuneration of the members of managing and supervising bodies were not developed based on provisions of directives of the European Commission and thus, not all the recommendations are applied. In accordance with article 24 d) of the Company's Articles of Association, the remuneration of the members of the Supervisory Board requires a resolution of the General Meeting, except for the members of the Supervisory Board delegated to temporarily perform functions of a members of the Management Board, pursuant to article 19 2d) of the Articles of Association, when the decision is taken by the Supervisory Board. The remuneration relates to the scope of tasks and responsibilities related to the function performed, reflects the size of the Company and keeps a healthy relation to its financial results. The remuneration of the Management Board members is set by the Supervisory Board and reflects the duties and responsibilities appointed to them.

Recommendation 1.9 'Warsaw Stock Exchange recommends public companies and their shareholders to ensure the balanced participation of men and women in performing management and supervision functions in the enterprises, thus enhancing creativity and innovations in their businesses'. In Cyfrowy Polsat, members of the Supervisory Board and the Management Board are appointed by the General Meeting and the Supervisory Board, respectively, based on qualifications, experience and competencies of the candidates. Factors such as gender are not considered when choosing the members of the Company's bodies. Company authorities believe that this approach guarantees the selection of the best persons to perform functions of management and supervision.

1.3. Internal control systems and risk management applied with respect to the process of preparing financial statements

The Management Board is responsible for our internal control system and its effectiveness in the process of preparing financial statements and interim reports prepared and published in accordance with the provisions of the Ordinance of the Minister of Finance of February 19, 2009 regarding current and periodic information to be submitted by issuers of securities, and the conditions for recognizing equivalence of information required under non-member states regulations.

We draw on our employees' extensive experience in the identification, documentation, recording and controlling of economic operations, including numerous control procedures supported by modern information technologies used for recording, processing and presentation of operational and financial data.

In order to ensure the accuracy and reliability of the accounts of the parent and subsidiary companies, we apply Accounting Policies for Cyfrowy Polsat S.A. Group and various of internal procedures relating to transaction control systems and processes resulting from the activities of the Company and the Group.

We keep our accounts in the computer systems connected/integrated with the underlying source systems and auxiliary books. We ensure data security through the use of access rights on the need-to-know basis granted to authorized users. Systems operations is assured by the specialists with extended experience in this field. In addition, the system security is ensured by applying the appropriate solutions for physical security of the equipment. We have a complete IT system documentation in all its areas. In accordance with Article 10 of the Polish Accounting Act of September 29, 1994, the accounting information systems documentation is periodically reviewed and updated upon approval by heads of units.

An important element of the risk management, in relation to the financial reporting process, is ongoing internal controls exercised by the Finance and Controlling department and the Internal Audit department.

The Internal audit functions on the basis of the Audit Charter adopted by the Management Board and the Audit Committee of the Supervisory Board. Its primary task is to test and evaluate controls for the reliability and consistency of financial data underlying the preparation of financial statements and management information.

The Controlling department functions on the basis of financial controlling system and business controlling system, and exercises control over both the current processes and the implementation of financial and operational plans, and preparation of financial statements and reports.

An important element of quality control and data review is the use of management standalone and consolidated reporting system, as well as regular monthly analysis of financial and operational performance and key indicators performed by the Management Board. The monthly results analysis is carried out in relation to both the current financial and operational plan and the prior period results.

The budgetary control system is based on monthly and annual financial and operational plans and long-term business projections. Both financial and operating results are monitored regularly in relation to the financial and operational plans. During the year, we perform an additional reviews of the financial and operational plans for the year if such need arises. The financial and operational plans are always adopted by the Management Board and approved by the Supervisory Board.

One of the basic elements of control in the preparation of financial statements of the Company and the Group is verification carried out by independent auditors. An auditor is chosen from a group of reputable firms, which guarantee a high standard of service and independence. The Supervisory Board of the Company chooses the Company's auditor. In the subsidiaries, the auditor is chosen by either Supervisory Board, General Meeting or the Meeting of Shareholders. The tasks of the independent auditor include, in particular: a review of semi-annual standalone and consolidated financial statements and audit of annual standalone and consolidated financial statements. Auditor's independence is fundamental to ensuring the accuracy of the audit.

An audit committee, appointed within the Company's Supervisory Board, supervises the financial reporting process in the Company. The Audit Committee oversees the financial reporting process, in order to ensure sustainability, transparency and integrity of financial information. The audit committee includes two members of the Supervisory Board, who meet the independence criteria set out in the Best Practices of WSE Listed Companies in Chapter III, Section 6 and the requirements of the Act of May 7, 2009 'On chartered auditors and their governing bodies, entities entitled to audit financial statements and on public supervision' in article 86 item 4.

Moreover, under Article 4a of the Polish Accounting Act of 29 September 1994 of the accounting act, the duties of the Supervisory Board include ensuring that the financial statements and the report on activities meet the requirements of the law, and the Supervisory Board carries out this duty, using the powers under the law and the articles of association of the Company. This is yet another level of control exercised by an independent body to ensure the accuracy and reliability of the information presented in the standalone and consolidated financial statements.
